Programming	Python, Java, JavaScript, SQL, HTML5, CSS3
Backend	Django, FastAPI, Node.js, Express.js, Spring Boot, REST APIs
Frontend	React.js, Angular, Tailwind CSS
Databases & Data	MySQL, MongoDB, SQLite, Pandas, NumPy
DevOps & Tools	Docker, Linux, Nginx, Git, GitHub, GitHub Actions, Postman

PROFESSIONAL EXPERIENCE

The Times of India (MMCL – Vijaya Karnataka) **Jul 2026 – Present**
AI Engineer *Bengaluru, India*

- Developing an AI-powered business intelligence assistant using Google ADK, OpenAI Responses API and Django.
- Built database-connected AI tools for meeting queries, opportunity analysis, client insights and team performance.
- Implemented fuzzy entity resolution, natural language date handling, contextual conversations and clarification workflows to improve AI response accuracy.
- Developing AI-driven analytics with structured results, KPIs, charts and business insights.
- Working on AI-powered newspaper advertisement identification, advertiser extraction and competitor analysis.
- Developed event management features with Excel imports, database integration and interactive UI enhancements.
- Contributing to QR-based digital newspaper experiences with page-specific access and interactive article navigation.

HKIT Security Solutions Pvt. Ltd. **Aug 2025 – Feb 2026**
Graduate Trainee *Bengaluru, India*

- Contributed to full-stack application development, including frontend implementation and backend integration.
- Worked on vulnerability assessment, penetration testing and application security analysis.

Test Yantra Software Solutions Pvt. Ltd. **Feb 2025 – Jun 2025**
Intern and Trainee *Bengaluru, India*

- Gained practical experience in Core Java, debugging and application development.

KEY PROJECTS

Agentic AI Business Intelligence Assistant
Python, Django, Google ADK, OpenAI, SQL

- Built an AI assistant for natural-language business queries with tools for meetings, opportunities, team hierarchy, entity resolution and contextual follow-ups.

AI-Powered Newspaper Advertisement Extraction
Python, Vision LLM APIs, Image/PDF Processing

- Developed an AI-assisted workflow to identify advertisements, distinguish them from editorial content and extract advertiser information.

QR-Based Interactive E-Paper Platform
React, Vite, FastAPI, SQLite, Docker

- Built a digital newspaper platform with page-specific QR access, PDF page browsing and clickable article regions for individual story navigation.

CERTIFICATIONS

Full Stack Java Developer – JSPiders | Certified Ethical Hacker – EC-Council

EDUCATION

B.E. – Computer Science and Engineering 2021 – 2025
AMC Engineering College, Bengaluru

PUC – PCMB (Vishwamanava PU College) 2019 – 2021
